- Relatório com análise de vulnerabilidades encontradas no sistema.

Sonar:

The screenshot shows the SonarQube web interface. The top navigation bar includes links for Projects, Issues, Rules, Quality profiles, Quality gates, Administration, and More. The left sidebar shows the project 'Fiap Tech Challenge - Fase 1' and various analysis options like Overview, Issues, Security hotspots, Reporting, Measures, Activity, Quality gate history, Policies, Quality profiles, Quality gate, Project, Code, Project information, and Project settings. The main content area displays the 'Overview' page for the project, showing a 'Passed' status for the quality gate. The metrics section includes Security (0 Open issues), Reliability (0 Open issues), Maintainability (0 Open issues), Accepted issues (0), Coverage (90.0%), Duplications (0.0%), and Security Hotspots (0).

UV Audit:

```
Found no known vulnerabilities and no adverse project statuses in 72 packages
(fiap-tech-challenge-fase-1) → Fiap-Tech-Challenge---Fase-1 git:(main) x uv audit --preview-features audit-command
Resolved 73 packages in 35ms
Found no known vulnerabilities and no adverse project statuses in 72 packages
```
